EDUCATION

Nepal Mega College
2021 - Present
Bachelor of Computer Application
(BCA)

SKILLS

- Backend Programming (laravel)
- Frontend Programming (React js)
- Databases (MySQL, MongoDB)
- Tools: Excel, Power BI, Git, GitHub, MS Office
- Soft Skills: Teamwork, Documentation, Communication, Adaptability, Problem-Solving, Time Management

PROFILE

Full-stack developer with expertise in building scalable web applications using modern technologies. Proficient in Laravel and React.js for developing robust backend APIs and dynamic user interfaces. Experienced in database design and management with both SQL and MongoDB, delivering efficient data solutions for diverse application requirements.

PROJECTS

To-Do List System

Developed a full-stack task management application using Laravel for the backend API and React.js for the frontend interface. Implemented core functionality including creating, updating, and deleting tasks, along with task completion tracking and user-friendly UI components for efficient task organization.

Online Food Ordering System

Developed a full-stack food ordering platform using PHP for server-side logic and MySQL database for data management, with HTML, CSS, and JavaScript for the frontend interface. Implemented features including browsing food menu catalogs, order placement functionality, and an admin dashboard for managing food items, categories, and order processing.
